DIPANKAR BHOWMIK

IT Support Engineer | Linux & Network Administration

+91 6296319143 | dkbhowmik0@gmail.com | linkedin.com/in/dipankarbhowmik | Kolkata, West Bengal

Open to Relocation (Bangalore / PAN India) | Immediate Joiner

CAREER OBJECTIVE

Motivated and hands-on IT Support professional with nearly 1 year of enterprise experience in desktop/laptop troubleshooting, Windows/Linux administration, network issue resolution, Active Directory management, and endpoint security. Adept at supporting large user bases, resolving tickets end-to-end, and maintaining reliable IT operations. Seeking a Technical Support Engineer or IT Infrastructure role with a clear growth path toward DevOps and cloud engineering.

TECHNICAL SKILLS

Operating Systems: Windows 10/11, Windows Server (basics), Ubuntu Linux, RHEL/CentOS basics, macOS basics

Networking: TCP/IP, DNS, DHCP, IP addressing, subnetting, LAN/WAN troubleshooting, VPN, NAT, static IP, ping, tracert, ipconfig, basic firewall

Desktop & Hardware Support: Laptop/desktop troubleshooting, hardware diagnostics, printer/scanner support, peripheral issues, system performance

User & Application Support: Microsoft Office 365, Outlook, MS Teams, browser troubleshooting, software installation, user account management

Active Directory: Domain join, user/computer management, group/user troubleshooting, local admin management, basic GPO

Endpoint Security: CrowdStrike endpoint protection, BitLocker encryption, ScreenConnect remote support, antivirus management

Linux Administration: User management, SSH, package management (apt/yum), services (systemctl), log analysis, file permissions, patching, LVM, basic server maintenance

Virtualization: Hyper-V, Proxmox, VMware Workstation — VM provisioning, disk management, VM troubleshooting

Automation & Monitoring: Ansible (playbooks, ad-hoc), Shell scripting, ELK Stack (Elasticsearch, Logstash, Kibana, Filebeat), Nginx, ModSecurity WAF

Remote & Support Tools: ScreenConnect, Remote Desktop, IT helpdesk ticketing, asset support, SOP documentation

WORK EXPERIENCE

ARC Document Solutions India Pvt. Ltd. July 2025 – June 2026

Network / IT Support Intern *Kolkata, West Bengal*

- Provided day-to-day technical support for approximately 300 enterprise users across Windows and Linux environments.
- Troubleshot desktop/laptop hardware, Windows OS, Ubuntu Linux, application, login, network, printer, and endpoint issues.
- Installed and configured Windows OS, required drivers, printers, Office 365, Zoom, and business software across multiple endpoints.
- Supported domain join activities and Active Directory user/computer management, including local admin and group troubleshooting.
- Deployed and managed endpoint security tools including CrowdStrike, BitLocker, and ScreenConnect remote support.
- Assisted with Linux server installation, patching, package updates, kernel maintenance, repository management, and SSH administration.
- Performed network troubleshooting: IP, DNS, DHCP, gateway, connectivity diagnostics, and basic firewall checks.

- Gained hands-on exposure to Hyper-V, Proxmox, and VM management in production infrastructure.
- Documented SOPs, maintained ticket records, and escalated complex issues to senior engineers with clear handoff notes.

PROJECTS

Linux Patch Management Automation | *Tech Stack: Ansible, Shell Scripting, RHEL/Ubuntu*

- Designed Ansible playbooks and shell scripts to automate Linux server patching across multiple hosts.
- Generated structured patch reports capturing hostname, OS version, kernel version, available updates, and reboot requirements.
- Reduced manual patching effort and ensured consistent patch state documentation across the managed server fleet.

EDUCATION

B.Sc. (Hons.) in Advanced Networking & Cyber Security 2022 – 2025

Brainware University, Barasat, Kolkata

CERTIFICATIONS

- **Networking Essentials** — Cisco
- **AWS Cloud Practitioner Essentials** — Amazon Web Services
- **Advanced Cyber Security: An Application Approach** — TCS ION Industry Honour Course
- **Certification in Ethical Hacking** — Indian School of Ethical Hacking
- **Linux Administration Basics**
- **Cloud & DevOps Fundamentals**

KEY STRENGTHS

- Strong troubleshooting mindset — methodical root-cause analysis across hardware, OS, network, and application layers.
- Effective user communication — able to explain technical issues clearly to non-technical users.
- Quick learner with hands-on lab practice in Linux, Ansible automation, and cloud fundamentals.
- Comfortable in rotational, shift-based, or high-volume support environments.
- Long-term growth interest in IT infrastructure, Linux engineering, and cloud/DevOps.
